

STATE OF MAINE  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
STATE HOUSE STATION 17  
AUGUSTA, MAINE 04333

BOARD ORDER  
IN THE MATTER OF

SEMS DocID 621076

FIBER MATERIALS, INCORPORATED )  
Biddeford, York County, Maine )  
Closure Plan for Interim Hazardous )  
Waste Facility License and Termination )  
of Interim License No. I-039 )

MAINE HAZARDOUS WASTE,  
SEPTAGE AND SOLID WASTE  
MANAGEMENT ACT

CONDITION COMPLIANCE

After a review of the project file which includes the hazardous waste facility closure plan and supporting materials submitted by Fiber Material, Incorporated (hereinafter FMI), staff reports and other materials on file relating to the above noted closure plan, pursuant to 38 M.R.S.A., Section 1301, et seq., and Chapter 855 of the Maine Hazardous Waste Management Rules, the Board finds the following facts:

1. FMI has submitted evidence concerning compliance with Condition #2 of the Order by the Board of Environmental Protection dated September 26, 1984. The evidence consists of a report from E.C. Jordan, consulting engineers of Portland, Maine. The report includes a statement by Alvin K. Ahlers, certified by James Atwell (State of Maine Registered Professional Engineer - 2529) that:
  - A. Hazardous Waste residues were not apparent at the facility; and
  - B. Hazardous wastes which were observed at the facility were stored in containers in a manner that appeared to be in compliance with generator standards of the Maine Hazardous Waste Management Rules.
2. The above certification by Mr. James Atwell was signed, sealed and dated on the 31st of October, 1984, but due to administrative scheduling at FMI was not received by Department staff until November 19, 1984.
3. FMI has submitted evidence concerning compliance with Condition #2 of the Order by the Board of Environmental Protection dated September 26, 1984.
4. Condition #2 reads as follows:

FMI shall submit prior to November 1, 1984, Certification that no hazardous waste or hazardous waste residues remain on the site, except such waste stored in containers and subject to generator standards of the Hazardous Waste Management Rules. Such certification shall be made by FMI and by an independent registered professional engineer.

Based on the above Findings of Fact, the Board concludes that FMI of Biddeford, Maine, has complied with Condition #2 of the Order for termination of Interim License No. I-039.

DONE AND DATED THIS 28TH DAY OF NOVEMBER, 1984.

BOARD OF ENVIRONMENTAL PROTECTION
